

# Making Virtual Real

You have digital images that bring you joy, now bring them to life.

Use The Digital Darkroom's leading edge technology to create inspiring, moving pictures to bring life, colour, imagination and memories to the walls of your home or office.

You have created images you are proud of, so show them off by printing them on Hahnemule's award winning photo rag matt papers or Sihl's high quality canvas.

15min            \$15

### Fine Art Scanning

Scans can be taken from many different sources including prints, negatives and slides. Please ask for more details.

#### Large resolution (4800ppi)

Single scan            \$45

Scan with print        \$30

#### Medium resolution (1200ppi)

Single scan            \$25

Scan with print        \$15

#### Low resolution (300ppi)

Single scan            \$15

### Restoration

Digital photo restoration uses digital image editing techniques to remove visible damage and aging effects from photographs.

Dirt, scratches, and other signs of photographic age are removed from the photograph manually, by painting over them meticulously.

Unwanted color casts are removed and the image's contrast or sharpening may be altered in an attempt to restore some of the contrast range or detail that is believed to be in the original image.
